

# CEO Retreat

Discovering 'your' organization of the future  
Consequences for you as a future leader

PROGRESS

## WHY ATTEND THIS PROGRAM?

You know that reaching the level of a CEO is not the end of the road, it's the beginning of a new one. In order to stay on top of your game, it's critical to continuously review the development of your organization and ultimately of yourself.

This program is not a regular development program that you can find at business schools or with other training institutes. It is instead highly tailored to the needs of your organization and yourself. This is achieved through initial interviews and assessments that will be used to fine-tune the program contents and ensure it's highly relevant for you.

## WHO SHOULD ATTEND?

This program is exclusively designed for progressive CEOs, Presidents or Managing Directors of medium to large sized organizations.

This program is for you if you believe that learning never ends and if you want to develop your organization and yourself to the next level through an inspiring exchange with other top leaders.

The program is strictly limited to 8 places and participants must have a good command of English.
