

# INSPIRE with PURPOSE

A 'Different' Retreat for C-Level Executives  
to Develop Leadership from Within

PROGRESS

## WHY ATTEND THIS PROGRAM?

You know that reaching the level of a C-Level Executive is not the end of the road, it's the beginning of a new one. In order to stay on top of your game, it's critical to continuously review the development of yourself.

This program is not a regular development program that you can find at business schools or with other training institutes. It is instead highly tailored to the needs of very senior executives who want to take their leadership to an even higher level. Progressive leaders know that the best investment for their company is the investment in the leadership development of their key people. This program will take you on a deep discovery journey of yourself where you will review your leadership approach and hidden aspects of yourself that you can leverage to become an even more inspiring leader.

## WHO SHOULD ATTEND?

This program is exclusively designed for progressive C-Level Executives, such as, CEOs, COOs, Presidents, etc. of larger sized organizations.

This program is for you if you believe that learning never ends and if you want to develop yourself to the next level through an inspiring discovery journey and exchange with other top leaders.

The program is strictly limited to 8 places and participants must have a good command of English. We will be very careful in selecting only participants who we consider to be on a similar level in terms of their responsibilities.

## WHAT WE WILL COVER

## Why Top CXOs Keep Learning

Forward thinking CXOs realize that the organization of the future requires a transformational and inspiring leader who can build a strong top management team.

They also know that they need to keep learning to stay on top of their game as the pace of change keeps accelerating.

Learning for CXOs is most effective and impactful when they come to deeper insights about themselves and the world they are operating in. Sharing from other top leaders can inspire them to new progressive ways to develop the organization of the future.
